## MESSAGE FROM VICE CHANCELLOR

"Law is an ever growing discipline and it has inter-related with every discipline of learning. We propose to explore new horizons of learning by associating legal education with its closely allied disciplines. The blending of law and management is very relevant and much needed in the contemporary era. With the globalization of the economy and the growth of international trade and business, the law has also assumed new roles and responsibilities. The financial markets and institutions have assumed the global role and have begun to transact across the borders which has created new opportunities, new challenges, especially in the field of taxation, international trade and commerce. These MBA Programmes is an attempt to spread quality education integrating the disciplines of management, taxation, corporate business, international trade and law. I am sure the proposed endeavor will be welcomed by academia and industry."

Prof. (Dr.) Dilip Ukey

"The University has spread its wings to varied fields of knowledge by introducing novel courses as well as by associating with different institutions of excellence. MNLU Mumbai has always focused on imparting quality education since its inception which makes our students stand out among their peers. We believe in integrating different areas of knowledge with the explosion of knowledge. No discipline can be nonresponsive to vibrations happening in society. Law has to discharge functions like being an instrument of social change, facilitating economic development, and protecting legal order, both national and international apart from safeguarding freedom, individual liberty, justice, and the rule of law. Both MBA Programmes are designed to produce efficient management professionals with legal knowledge and expertise in international business, taxation, corporate banking, finance, and law." -

Dr. Pratapsinh B. Salunke
